Straitline Canvas Outdoor Patio Blinds

are made right here in Palmerston North. Each blind is custom made to fit any size gap from top quality fabrics, including European PVC and Japanese Clear PVC. Simply supply us the rough measurements of each gap you would like to fill (with a picture of your outdoor area) for a free quote. These systems are split into manual operation and assisted operation.

All systems are available in Shade/ Privacy Mesh or Clear PVC. Visit our website for more details. Installation is available.

The best part: Patio Blinds don't require building consent, so they are a cost-effective way to add another room to your house.

ASSISTED OPERATION

ZIPTRAK PATIO BLINDS are our premium blind system, spring-balanced for effortless operation – the ultimate ease of use. Side tracks provide stability when rolling up or down, and also offer an excellent seal from the weather. Ziptrak Patio Blinds are designed to create the ultimate outdoor area.

GEARBOX PATIO BLINDS are easy to use, our most versatile system and are custom designed to withstand New Zealand weather. Gearbox Patio Blinds fix at the top and floor, no side posts required. Gearbox Blinds are raised and lowered with a simple winder handle. Perfect for outdoor areas where ease of use and cost are important.

MANUAL OPERATION

ZIP PATIO BLINDS are simple, cost-effective and designed for the New Zealand climate. The Zip Patio Blind system offers the best weather protection, on a budget. Zip Patio Blinds fix on three sides (top and sides) and use HD zips to allow the blinds to be manually opened and closed.

TENSION PATIO BLINDS are stormproof and are our toughest system. Tension Blinds fix only at the top and tension down to flush rings mounted to your deck or patio area using our innovative thumbscrew tensioning system. Tension Blinds can be manually rolled up by releasing the tension screws. Designed for use in areas with no side posts or in high wind zones.
